- English
- Tamil
- Sinhala

PROFILE

I'm a motivated Software Engineering undergraduate with a strong work ethic, attention to detail, and a passion for learning. I thrive in team settings and fast-paced environments, always aiming to grow and deliver impactful results.

PROJECTS

DreamGreen (Mobile App)

Jan 2024 to Jun 2024

- Developed a vegetable ordering app using Android Studio and Java
- Designed responsive UI screens for smooth user interaction
- Integrated user registration, location detection, and payment options
- Implemented QR code-based delivery tracking system
- Used SQLite for offline data and MySQL for online order management

OLMS (Website)

Jan 2024 to Nov 2024

- Developed a web-based library system using PHP, MySQL, HTML, and CSS
- Designed user-friendly interfaces for book search, reservation, and return features
- Implemented user authentication and real-time book availability tracking
- Integrated MySQL for efficient database management and PHP for dynamic content generation
- Optimized system for enhanced accessibility and improved user experience

ACHIEVEMENTS

- Completed multiple web development certifications, including top scorer in HTML, CSS, JavaScript and MySQL – Sololearn
- Completed Web Development and Design for Beginners course by the University of Moratuwa
- Completed certifications via Great Learning in areas including Android Development, Java, JavaScript, HTML, Python, UI/UX, Excel, and Cloud Computing.

EXPERIENCE

M R LAW ASSOCIATES (6months)
286 DAM ST, COLOMBO

- Automated document workflows, significantly reducing manual tasks and increasing efficiency.
- Created and managed legal deeds, ensuring compliance and accuracy.
- Handled cloud-based file systems for organizing and accessing case files securely.
- Streamlined document management, enhancing collaboration and workflow within the office.
